

Jardine Schindler Group Field Engineer Development Program

Jardine Schindler Group (JSG) is a joint venture between Jardine Matheson of Hong Kong and Schindler Group of Switzerland who have centuries of combined experience in business management, regional specialization and engineering excellence.

Headquartered in Hong Kong, JSG designs, engineers, installs, maintains and modernizes elevators, escalators as well as moving walkways in Brunei, Cambodia, Hong Kong, Macau, Malaysia, Indonesia, Myanmar, the Philippines, Singapore, Thailand, Taiwan and Vietnam.

Field Engineer Development Program

You will be introduced to Schindler's business processes in the first phase of the program. In the second phase, you will receive classroom and on-the-job training to learn Schindler's latest products and technology and acquire technical skills, learning from ground up.

Upon successful completion of 24 months on-the-job development, you will undergo further development as part of our technical resource succession planning to become a technical expert or technical manager.

Apply now if you satisfy the following requirements:

- Engineering diploma/degree from reputable polytechnic or university (electronic/electrical background preferred)
- Ability to read/write in English, speak basic level English
- Problem solving, people and achievement orientation competency
- Willingness to work in construction site to learn Schindler's field processes, products and technology

To apply to this exciting program, you need to submit the following information to recruit.shk@hk.schindler.com:

- CV including extra curricular activities with cover letter in English
- Transcripts and relevant certificates
- Work experience references (if any)
